

Metrology accessories

Order-no.	Specification	Price in €
TI-854 	Tilting swivable precise vice - 2 axis tilting swivable precision vice - hardened trapezium screw spindle - hardened alloy steel - width of jaws 70 mm clamp capacity: 80 mm	1.200,00
RC-PMS63 	Precision measuring vice - hardened alloy steel - with hardened trapezium screw spindle - jaws with horizontal and vertical V-grooves - width 63 mm - clamp capacity 66 mm	154,00
	Precision vice, series "Mini" - hardened alloy steel - jaws with horizontal and vertical V-grooves	
HIT-MINSPAN	Clamp capacity 14,5mm: width 15 mm;	170,00
HIT-MINSPAN25	Clamp capacity: 24,5 mm; width: 25 mm,	155,00
LNP-031077 	High precision vice for multiple purposes - hardened alloy steel - with hardened trapezium screw spindle - jaws with horizontal and vertical V-grooves     	795,00

Order-no.	Specification	Price in €
PM-CV-MT25 	XY-Cross table 25x25 Surface: 80 x 80 mm Delivered with mechanical spindle 25 mm	465,00
PM-CV-RT25 	Rotating table Can be fixed on PM-CV-MT25	275,00
RC-PP1 	Precision V-blocks (Pair) - made of hardened chrome-steel - with clamps - dimension: 50x30x30 mm	64,00
RC-PP4	Precision V-blocks (pair) Like above, dimensions: 75x55x55 mm	75,00
PM-KTP-100 	V-block made in POM for positionning rotative pieces. Very useful for optical purposes to reduce reflections	150,00
