

magnifier & linnen tester

Compact helpers for fast controlling on site

Order-no.	specifications	Price in €
PM-FD-030 	Metal frame Single glass lens magnification 6x base frame with cut out 25x25 mm with mm scale	9,00
	Frame made of brass, surface chromed Double glass lens With glass scale in base frame, increment 0,1 mm	
PM-AP-8-1975	magnification 7x field of view: 26 mm	45,00
PM-AP-8-1983	magnification: 10x field of view: 32 mm	65,00
	Metal frame The double glass lens allows a vision without distortion	
PM-1209-WZ3	Magnification: 9x, graduation 0,1mm, field of view: 10x10 mm	14,00
PM-3408-WZ3	Magnification: 8x, graduation 0,1mm, field of view: 15x15 mm	16,00
PM-1006-WZ3	Magnification: 6x, graduation 0,1mm, field of view: 25x25 mm	17,00
PM-1504-WZ3	Magnification: 4x, graduation 0,1mm, field of view: 40x40 mm	65,00

Order-no.	specifications	Price in €
PM-1975 	Measuring magnifiers Magnification 7x Glass scale graduation: 0,1 mm delivered in a leather case	45,00
PM-1983 	Measuring magnifiers Magnification 10x Glass scale graduation: 0,1 mm delivered in a leather case *grand champ de vue*	65,00
PM-2016 	Measuring magnifiers Magnification 15x Glass scale graduation: 0,1 mm delivered in a leather case	89,00
PM-2055 	Measuring magnifiers Magnification 20x Glass scale graduation: 0,1 mm delivered in a leather case	94,00
PM-2037 	Measuring magnifiers Magnification 30x Glass scale graduation: 0,05 mm delivered in a leather case	100,00
	Crack magnifier With a sloping stainless-steel plate in the base. A scale with increments of 0,1 mm etched into this plate. This magnifier is focussed by means of its height adjustable lens system. The crack magnifier is particularly suitable for checking and inspecting cutting edges on drilling and milling tools in the metal processing industry.	
PM-RL8	Magnification 8x	65,00
PM-RL10	Magnification 10x	70,00
