

The retrofit kit for Profile projector

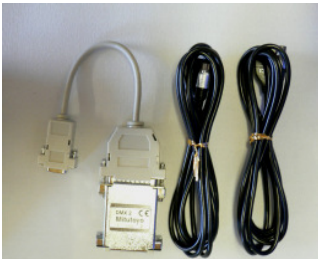

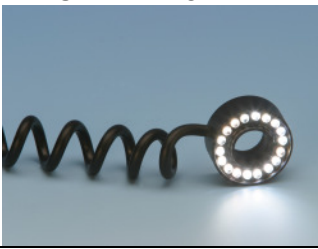

By changing the objective against a CCD camera, the profile projector is transformed into a modern videomicroscope with all measuring, documentation and memorization possibilities of the METRIC Software. All functions of the profile projector are kept!

The whole accessories of the CV-inspection program can be used!

Order-no..	specification	Price in €
PM-PPU-01 	Retrofit for profile projector Components: - 1/3" CCD camera color with adapter - tube 40 mm / objective 2x (magnification: 21x; field of view: 11mm; working distance: 103 mm)	1.690,00
PM-FGC-PC 	Framegrabber for PC	390,00
PM-METRIC 	Standard version with basic measuring functions in the le field of view: distances, angles, radius, etc.	720,00

optional accessoires for the retrofit kit

Order-no..	specification	Price in €
MI-164-161 	Micrometer head, range 50 mm resolution 0,001 mm for cross table PM- MT-50 *** 2 pieces needed***	639,00
MI-KA-SA 	Cables for micrometer head DIGIMATIC MI-164-161: - Interface DMX2 - cables for interface (2 pieces) - Adapter (Dsub25-Dsub9) for reading the values in the software PM-METRIC-MT	365,00
PM-CV-LED-16 	Ringlight with LED for objektives CV series ; opening 14 mm current supply via CCD camera or external 12V power supply	295,00
PM-METRIC-MT 	Metric Plus KMT like Metric with additional functions e.g.variable reticules, Hotkeys, Videoclip, DXF-Overlay, etc. in combination with crosstables with measuring systems e.g. SCD, Heidenhain, Digimatic, etc. Automatic Autocalibration function	1.650,00
